The awarding of scholarships consists of the following stages:

1. Comparative evaluation of applications received through the *Study in Italy* portal based on the fulfilment of the requirements and on criteria related to the merit of the applicant's educational background, for the purpose of potential admission to the interview;
2. Interview with only those applicants who have successfully passed the comparative evaluation stage;

If the ranking cannot be published for privacy and/or security reasons, winners will be notified individually.

8.4 Enrolment, tax identification number and visa

Scholarship recipients must take all necessary steps to pre-enrol and/or enrol at the chosen institution. The scholarship will be paid **at the end of the funding period**, upon verification of the scholarship recipient's presence on the Italian territory within 15 days from the scholarship starting date, enrolment at the chosen institution and satisfactory progress.

The office, after evaluating the reason for the absence, reserves the right not to reduce the scholarship amount. The scholarship recipient may request such an evaluation only once during the entire funding period of the scholarship.
An exception is made for absence from the Italian territory during the suspension of academic activities for the Christmas holidays, for which no notification is required. Students may be absent up to 5 days before and 5 days after the suspension of academic activities. Students are invited to check the academic calendar of their enrolled institution.
