CARAVAGGIO

Sat. 9.19 \ 11:30
Assia \ TLV Museum

Caravaggio's life was as dramatic as his paintings. His bold realism, which gave biblical figures the faces and humanity of ordinary people, often challenged the Catholic Church and reflected the turbulence of his own life - marked by violence, accusations of murder, and a mysterious death.

Part of the Exhibition on Screen series, the film explores Caravaggio's revolutionary use of light and shadow through close-ups of his masterpieces, expert commentary, and dramatic reenactments.

The film is screened courtesy
of the Italian Cultural Institute.
